# Mining Practice

We are pleased to announce that the JLT and Lloyd & Partners Limited Property Mining Practices have merged, strengthening our presence and capability in this sector.

Mining is one of the fastest growing sectors of our business. Due to the complex and ever changing nature of the risks involved, we have recruited specialists in the insurance industry who have a strong understanding of your risks, the market place and excellent relationships with all lead mining carriers. This understanding allows us to assess what coverage is available and, more importantly, what coverage is appropriate.

In the mining sector particularly, effective employment of available capacity where International markets are involved demands superior marketing skills and imaginative approaches to achieve the best programmes. Our Practice is well positioned to achieve this with you through our network of offices.

## Our customers

We work with our JLT Mining Practices, directly with mining companies and partner with local producers to provide programme design and specialist placement capability for all types of mine, with a broad geographic scope as shown below:-

This map denotes regional geographical representation of our business and is not intended to be geologically accurate.

## What our customers say about us

“Head and shoulders above the competition.”

“Their commitment to and delivery of service is outstanding.”

“Innovative and creative.”

“Our portfolio with Lloyd and Partners will continue to expand.”

“Treated as a valued customer rather than a source of revenue.”

“Let me say again just how pleased we are with the great work by yourselves in getting this program across the line. Well done.”

We also have outstanding capabilities in other lines of business, including market leading teams in construction, cargo, financial and political risks, specie and liability.
